

If you're serious about eliminating mistakes......about rapidly reducing human error in your organization...about taking performance to the next level, but (for whatever reason) are unable to attend any of our upcoming one-day intensives, we have an opportunity for you:

Eliminating Human Error 201 - The TeleCourse.

What's a TeleCourse?

A PPI TeleCourse is an excellent opportunity for you to learn directly from Tim Autrey in the privacy of your own home or office.

Here's how it works...

- You'll be given private access to our exclusive Education Conference Line
- Course materials will be made available for you to download and review prior to each session
- You'll want to print out the materials and lay them out in front of you (so that you can study them and takes notes), then
- You'll call the Education Line at a pre-designated time from the privacy of your office or home
- After keying in your private access code, you will be connected directly with Tim Autrey, who will educate you in both foundational and advanced strategies for eliminating human error in your business.

Eliminating Human Error 201 is a comprehensive study.

From the psychology of error itself, to foundational philosophies of Practicing Perfection™, to specific strategies and tools for eliminating human error in your organization, you will be guided by Tim Autrey to a level of knowledge about human error and how to prevent it that far surpasses any other available in this format anywhere else in the world.

Visit <http://www.practicingperfectioninstitute.com> to find out more about the TeleCourse.

Eliminating Human Error 201 will be presented by Tim Autrey in a series of eight live presentations.

A few more things for you to know...

- Each session lasts for 90 minutes
- Time is allotted in each session for you to ask Tim questions about your specific challenges and circumstances.
- The handout materials (combined with your notes) will provide you with an exceptional personalized reference library that you will want to refer to many times as you move these strategies and tools into the culture of your organization.
- If you miss a class (or if you simply want to review a specific presentation), each session will be recorded and available for your online listening any time you desire.
- Upon completing the course and successfully passing an open-book on-line examination, you will be awarded a Graduation Certificate, attesting to your expertise in the elimination of human error.

So...when does the next TeleCourse start?

We are providing maximum flexibility for your learning-

- one timeslot for those who would rather listen during regular work hours
- one timeslot for those who will be listening in the evening

These are separate live sessions; however, Tim will be covering the same material in the same sequence, allowing you the flexibility to choose either (or both) times for your participation during the eight week program.

The next TeleCourse begins during the first week of October, 2006.

- Daytime TeleCourse-Tuesdays at 2:00PM (US Eastern)
Session I begins on Tuesday, October 3, 2006
- Evening TeleCourse-Wednesdays at 9:00PM (US Eastern)
Session I begins on Wednesday, October 4, 2006
